the ex-husband to suspend payment because the money he suspects is being improperly used because under LB1015 the court requires records to be kept of the money.

SENATOR LUEDTKE: There is no person going to pay money when he knows the money is not going for the purpose for which it is used and legal counsel will probably tell him suspend payment and go to court and that's what will happen under LB1015 and there'll be a determination made by the court as to who's right. But in the interim we would not want this whole thing to be fouled up by somebody following through with suspension of a drivers license. That's what I'm saying. Some how these bills, they are not consistent, they do not work together to achieve the purpose that we all want.

SENATOR SCHMIT: Could I ask one more question, Mr. President?

PRESIDENT: A short one.

SENATOR SCHMIT: Do you not believe that the 60 days that are provided for in the amendment is adequate time for the individual to make comment to the court so that the court can take whatever action is necessary to enforce the proper utilization of the money? There are 60 days provided here, that should be adequate time, I would believe.

SENATOR LUEDTKE: It may or it may not depending upon what court you're in. If this is an honest dispute, it may take more than 60 days. I would not want to be tied down to a specific amount of time.

PRESIDENT: Senator Frank Lewis.

SENATOR FRANK LEWIS: Mr. Chairman, I rise to support Senator Schmit. I supported this out of committee. There are two or three very valuable pieces of information the Body needs to know. The non-compliance in this area is unbelievable. And Senator Schmit brought in some information and there's been a study in Wisconsin. Some of the non-compliances, up to about 70%, I wouldn't have looked upon this very favorably had it not been that Senator Schmit has shown that he has a real interest in providing the necessary funds for those recipients of ADC. He has been a consistent champion for that cause in the 2 years I've been here. And he simply wants to get at the point that certainly you provide, try to provide all the resources you can. From the father and then there will be no excuse for any member of this Legislature or anywhere else for those children who no longer have money to support from their parents to refuse to provide that necessary funds to see that they have a decent quality of life. This may be a drastic approach but when the non-compliance is to that extreme, cases cannot be legitimate disputes. Certainly some people feel like they don't have to comply with laws, they don't have to comply with their moral obligations and I think this is a drastic measure to solve a rather serious problem.

PRESIDENT: Ready to vote. Senator Cavanaugh. Would you prefer to wait, Senator Cavanaugh, until we talk about the bill as a whole? I'd like to get these amendments adopted, the bill's a whole and then kill the bill later if you want to. Those in favor of the bill, vote....the amendments, standing committee amendments, vote aye. Those opposed vote nay. Senator Whitney voting aye.

CLERK: Senator Whitney voting aye.
